STRONGER SEXUAL PREDATOR STATUE BEING PETITIONED TO PREVENT SEXUAL PREDATORS BY REQUIRING TRACKING BY GPS ANKLE BRACELETS, FOR LIFE

2007 - Petition signatures are being gathered for a stronger sexual predator statue mirroring that of the recently adopted Wisconsin law "Global Position System Tracking and Residence Requirement for Certain Sex Offenders." This ground-breaking legislation is designed to prevent sexual predators from re-offending by requiring tracking by GPS bracelets, for life.

Ez Blue Racing Team OPMP (Operation Microchip Predator) is in the process of gathering signatures on a petition in support of this legislation to recommend that the State of Florida and the State of South Carolina also adopt a similar law to help not only our state but to set an example and lead the way for other states; however OPMP will be recommending that the Wisconsin law be taken a step further by adding the following two objectives.

1. Ongoing Awareness and Education - Through the use of dvds, workbooks and other programs increase the awareness of the issue of sex offenders and provide education for children of all age groups on potential predators, tactics that predators use and ways the children can protect themselves.
2. A Zero Tolerance policy - this will help to reinforce to sexual predators or offenders that we will prosecute all or any to the full extent of the law, thereby helping to prevent and all predators who may be thinking of committing these acts.
3. Utilizing the current technology at security checkpoints and store checkpoints, have the bracelet registered in a central database that would alert Parole officers 24/7 that there is a sexual predator on premises; this could apply to movie theaters, malls, sporting events / locations, etc.

Letters have been presented to Governor Crist of Florida and Governor Sanford of South Carolina this week to get their support of this petition. Additional support is needed, please download a sample letter and petition from www.EZBLUERACINGOPMP.com and send it into your state legislators, congressmen, and senators.

Adoption of this law will be another step towards keeping our children safe. If you would like to join in this campaign or show your support, please contact us.
